INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/JP2003/011949

I. Basis of the report								
1. With regard to the elements of the international application:*								
	\boxtimes	the international application as originally filed						
[the description:						
		pages, as originally	filed					
		pages, filed with the den						
		pages, filed with the letter of						
ſ		the claims:						
١		Pages	E104					
		pages, as originally : pages, as amended (together with any statement under Article)						
		pages, as unions to (together with any statement under white pages, filed with the den						
		pages, filed with the letter of						
1	\neg	the drawings:						
1			ر , ,					
		, as originary						
		pages, filed with the der	nand					
ſ	╗.							
l	'	he sequence listing part of the description;						
		pages, as originally pages						
		, filed with the der						
		pages, filed with the letter of						
2. With regard to the language, all the elements marked above were available or furnished to this Authority in the lang the international application was filed, unless otherwise indicated under this item. These elements were available or furnished to this Authority in the following language								
	님	the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).						
	H	the language of publication of the international application (under Rule 48.3(b)).						
		the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 or 55.3).						
3.	With	regard to any nucleotide and/or amino acid sequence disclosed in the international application, the internat ninary examination was carried out on the basis of the sequence listing:	ional					
	닏	contained in the international application in written form.						
	filed together with the international application in computer readable form.							
	H	furnished subsequently to this Authority in written form.						
	닏	furnished subsequently to this Authority in computer readable form.						
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in international application as filed has been furnished.	ı the					
	Ш	The statement that the information recorded in computer readable form is identical to the written sequence listing been furnished.	g has					
4.		The amendments have resulted in the cancellation of:						
		the description, pages						
		the claims, Nos.						
		the drawings, sheets/fig						
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**	to go					
	in th and i	ocement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referr is report as "originally filed" and are not annexed to this report since they do not contain amendments (Rule 10.17). eplacement sheet containing such amendments must be referred to under item 1 and annexed to this report.	ed to 70.16

2. Citations and explanations

Claims 1-7

Document 1: JP 2002-271773 A (Matsushita Electric Industrial Co., Ltd.), 20 September 2002, entire text; all drawings

Document 1 is a document that reflects the general state of the art in this technical field and discloses the feature wherein data output from an information processing device is converted into data in different formats in real time. However, a data conversion system wherein at least one of a first node and a second node are provided on an IEEE 1394 bus, a reference signal inputted externally is received, and the frequency of the cycle start packet for outputting the cycle mask is synchronised with said received reference signal, is neither disclosed nor suggested in any of the documents cited in the international search report.
